

FLJ/400

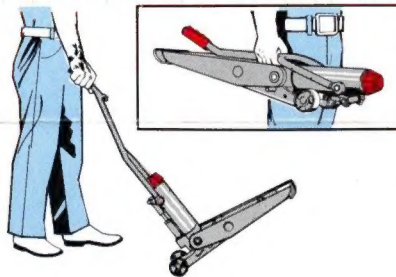

**A portable jack
designed
specifically
for raising
machinery or
fork lift trucks**

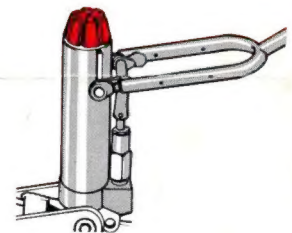

low start of 2¼ inches

Mini-Brute Power—Has a lift capacity of 8,000 pounds yet weighs only 60 lbs! Will lift from 2¼" to 16" for the easiest possible maintenance.

Easy Portability—"Walking Beam" fold-up design provides easy carrying or wheeling. Features a fold-down handle and hydraulic unit for ease in carrying the jack.

Two-Speed Pump—Raises lift-pad quickly to meet load and then automatically adjusts to low speed for easier lifting.

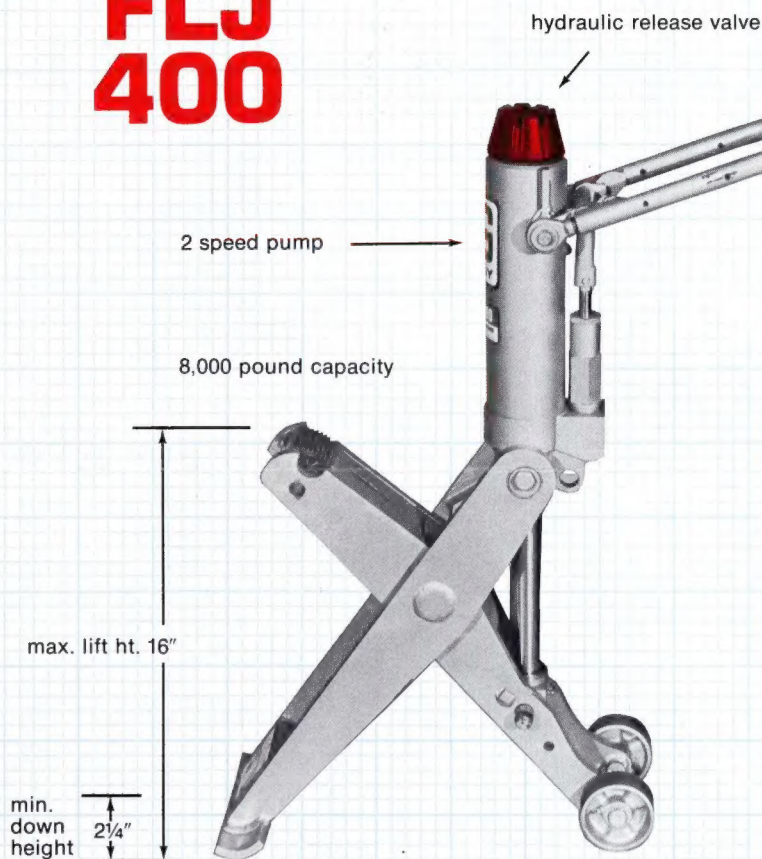

The FLJ/400 is guaranteed for two years against all types of damage resulting from normal use which makes the jack unfit for service.
